globalbeamtelecom.com

WE ARE DEDICATED TO ENSURING SEAMLESS CONNECTIVITY ACROSS VARIOUS SECTORS INCLUDING ENTERPRISES, MARITIME, GLOBAL GOVERNMENT, AND MORE.

Global Beam Telecom is at the forefront of delivering cutting-edge satellite communication solutions. We are dedicated to ensuring seamless connectivity across various sectors including travel, maritime, defence, industrial, and more. Our partnership with industry leaders like Viasat/Inmarsat, Hytera, Motorola, Minfarm Tech, Orbcom and Sepura enable us to provide a comprehensive suite of communication products and services designed to meet the unique needs of our clients.

OUR VISION

To revolutionize the portfolio of telecom products in order to serve the unconnected world. We aim to manufacture smart products that will improve the quality of connectivity for businesses and clients, fostering stronger and more efficient communications globally.

OUR MISSION

To deliver the most reliable connectivity solutions through our trusted partners, ensuring that our clients can stay connected, safe, and in control, no matter where they are.

OUR PARTNERS

Our strategic partnerships with industry leaders such as Viasat/Inmarsat, Hytera, Motorola, Minfarm Tech, Orbcom and Sepura have enabled us to deliver cutting-edge communication solutions. These collaborations enhance our product offerings, ensuring reliable and innovative services for our global clients.

Satellite Communication Solutions

Viasat Services: Providing unmatched connectivity with BGAN, IoT Nano, and ELERA L-band satellite network for real-time applications such as smart metering, SCADA, remote asset monitoring, and environmental data reporting.

Orbcomm Solutions: Offering innovative IoT solutions for asset tracking, remote monitoring, and fleet management.

MinFarm Solutions: Delivering advanced satellite-based IoT solutions for Oil & Gas, Agriculture, Environmental monitoring, and Smart cities.

SERVICES

Radio Communication Solutions

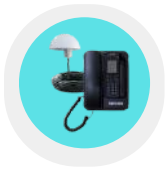

Hytera Portfolio: Offers a range of communication solutions, including DMR radios, TETRA systems, PoC devices, and dispatch systems. These solutions enhance communication, safety, and efficiency across sectors such as public safety, transportation, and industrial operations.

Motorola Solutions: Provides a reliable and robust radio frequency devices for secure and clear communication in critical operations. Their devices are built to MIL standards to withstand the harshest environment.

Satellite Products

Our offerings include satellite phones, broadband terminals, and IoT devices, designed to ensure reliable connectivity in the most remote and challenging environments. These products enable seamless communication for industries such as maritime, aviation, oil and gas, and emergency response, ensuring critical operations can continue uninterrupted, no matter the location.
